

9/19/14

Hello ONS Nurse Navigator SIG Members,

We are asking for your feedback regarding the updating of a Cancer Insurance Checklist, which ONS with the Cancer Support Community and others developed last year. This checklist was initially developed to help people looking to purchase insurance on the Health Insurance Market place or exchange last year when Healthcare.gov was launched. The checklist was designed to help people ask questions of their insurance companies that specifically involve support for cancer treatment and ongoing support.

Even if the patient is not looking to change plans, this checklist may help guide their discussions with their insurance company. The checklist is in both [English](#) and [Spanish](#) versions. You can also access via the website: <http://www.cancerinsurancechecklist.org/>.

Please respond to jean_sellers@med.unc.edu by September 30, 2014 with your feedback.

Thanks

Jean Sellers
NAV SIG Coordinator
